PROFESSIONAL SUMMARY

Fresh IT graduate from Delta Technological University (2026, Excellent grade, GPA 3.68/4.0) with hands-on exposure across software development, networking, system administration, and security. Completed a 23-week penetration testing internship (DEPI) covering the full offensive-security lifecycle, holds a Red Hat System Administration I certification, and has covered CCNA/Network+ level networking through university coursework and Cisco Packet Tracer labs. Builds working software in Python, Java, and Flutter, and led a cross-functional team through the end-to-end delivery of an AI-powered graduation project, from architecture to deployment. Comfortable troubleshooting issues, writing clear documentation, and explaining technical topics in simple terms skills built through customer-facing and remote team roles.

SKILLS

- **Troubleshooting & Support:** Remote support, customer service, Microsoft Office 365, Windows & Linux desktop support
- **Networking & Protocols:** TCP/IP, DNS, DHCP, VLAN basics, routing & switching, CCNA fundamentals, Network+, Cisco Packet Tracer
- **Systems & Security:** Linux administration (RHCSA-level), Windows administration, Bash, SSH, system, vulnerability assessment, basic penetration testing (Nmap, Metasploit, Burp Suite)
- **Software Development:** Python, Java, C++, Flutter, Git, Docker
- **Design & Collaboration Tools:** Figma, Notion, Canva

WORK EXPERIENCE

I Career | Remote

I Career Ambassador | Sep 2025 – Jan 2026

- Ran awareness sessions explaining program eligibility and registration steps to student audiences, including the Google Gemini for Students program.
- Delivered CV-writing and career-planning sessions; built public speaking, presentation, and relationship-building skills across a distributed team.

EDUCATION

Delta Technological University | Egypt

Bachelor of Information Technology | Graduated 2026

- Grade: Excellent | GPA: 3.68 / 4.0
